

## Little fish try harder.

When you're little fish, you try harder. Little fish have to keep moving all of the time. The big ones never stop picking on them. We are little fish, we try harder. We're always checking everyones equipments are suitable. Arrange more clothes if needed. Food doesnt go end. Checking that the headlights batteries are full of life. And our rubber boots for you, we make sure that there is no leak. And since we're not the big fish, you won't feel like sardine when you come to our trip.
